

## Method 1

- Print and cut out ring sizer. Cut a small slit at the indicated spot.
- Wrap sizer around finger and put the pointed end through the slit with numbers facing out.
- Pull pointed end until it is snug around your finger; not too tight, not too loose.
- Approximate ring size should be the number appearing at the slit.

## Method 2

- Use a ring from your current collection. Place it over the circles until you find the circle that fits directly in the inside edge of the ring.
- If the ring falls between two sizes, order the larger size.
